UKTI Tradeshow Access Programme  
Grant £2,500 per eligible company

The Indian Food and Drink industry is one of the fastest growing industry sectors in India and is expected to grow at an encouraging pace of 15% -20% over the next 5 years. **FoodTec India** meets all the needs of the food and drink processing industry, from processing to packaging to storage and distribution.

As Indian multinationals invest to build market share there is a growing need for technology to upgrade the suppliers to the food and drink industry. The show is an offshoot of Anuga FoodTec in Cologne and is organised by Koelnmesse whose international strategy involves staging trade fairs in rapidly growing emerging markets.
